

Strand Woven Bamboo Panels

Strand woven natural panels are available in $\frac{3}{4}$ " with a cross core and $\frac{1}{8}$ " and $\frac{3}{4}$ " solid core. All Bamboo Revolution strand woven panels use urea-formaldehyde free adhesives, and meet the most stringent indoor air quality standards.

Strand woven bamboo panels function similarly to wood products, and can be fabricated with conventional woodworking equipment. An open-grain material, it takes stains and finishes extremely well.

Bamboo Revolution is a collective of designers, product developers, craftsmen and innovators that believe bamboo has unlimited potential to create a better built environment. We coordinate our products from design to delivery ensuring the highest quality and best value available. Through our commitment to the natural environment and our community, we can promise to create the healthiest, most timeless, products possible.

Strand woven bamboo is one of the most exciting new products available from Bamboo Revolution. At twice the hardness of red oak, it is an exceptional choice for commercial applications as well as residential projects.

Strand woven bamboo is made from individual slats that are thrashed into thin strips and cold pressed under 1,800 metric tons of pressure. The finished piece has a more organic grain pattern than its traditional bamboo predecessors, creating a strikingly elegant appearance.

3-Ply Vertical Cross Core

48" x 96" x $\frac{3}{4}$ "

Single-Ply (Solid Core)

48" x 96" x $\frac{3}{4}$ "

48" x 96" x $\frac{1}{8}$ "

48" x 72" x $\frac{1}{8}$ "

Finish

Unfinished

Adhesives

NAUF (no added urea-formaldehyde)

LEED Credit-Opportunity Contributions

IEQ Credit 4.4: Low-Emitting Materials
MR Credit 6: Rapidly Renewable Materials
MR Credit 7: FSC Certified Available
